The CAM32 Pharmacy Point of Sale Software provides healthcare providers and pharmacies with the ability to quickly and accurately process payments for prescriptions from their pharmacy operations. Through automated interfaces to the hospital or clinic's pharmacy applications, CAM32 reduces manual effort and improves the accuracy and controls over patient prescription transactions.

CAM32 interfaces in real-time to pharmacy systems. As prescriptions are filled by the pharmacy system, CAM32 point of sale Prescription Tracking Software is instantly updated with the RX number, co-pay, patient name, etc. When the patient picks up the prescriptions and any OTC's which are then scanned through the CAM32 point of sale system and the sale is completed, CAM32's Prescription Tracking Software is updated and a message is sent to your pharmacy system that the item has been picked up. CAM32's Prescription Tracking Software provides reports of all outstanding unpaid prescriptions alphabetically which allows you to audit your will call.

Entering information into the CAM32 Pharmacy POS software is quick and easy using any one of its wholesaler interfaces. With these industry specific interfaces, the system can import and update products and prices automatically. The software has built-in support for such wholesalers as Cardinal, McKesson, Amerisource-Bergen, DIK Drugs, Value Drugs, Promotions Unlimited, Hamacher, and The F. Dohmen Company.

CAM32 Pharmacy POS Software offers your pharmacy IAS Compliance, SIGIS Eligible Lists, Auto Purchasing, Inventory Control, Customer Management, Multi-store Communications, Frequent Shopper, Integrated E-commerce, Credit Card Processing and E-signature Capture for HIPAA compliance, RX Logs, and Credit Card processing.

CAM32 has integrated credit and debit card processing including signature capture devices to allow you to electronically record the patient's authorization for the prescriptions and for credit or debit card payment.

CAM32 POS Software interfaces with RX systems such as RX30, IPS By SuiteRx, McKesson, Pharmaserv for Windows, QS / 1 – NRx, PDX-NHIN, Digital Simplistics, Renlar, Condor, CarePoint / GuardianRx, VIP, PC1, Foundation Viking, PK The Compounder, Etreby, Best Rx, RNA, FSI, DAA, and is PharmacyRx compatible.

With increasing rules and regulations on pharmacy operations and patient prescriptions, CAM32 Pharmacy Point of Sale Software allows you to improve compliance and control your operations.
